MR. EDITOR :- By your permission I propose briefly to sketch the doings of this body, which convened in Camden on the 7th inst., after an introductory sermon by Rev. J. W. Indeed. sir, is it not possible that religious bodies err in restricting the publication of their transactions to their respective organs? Public opinion is moulded by the ministry of religion and the public is reached mainly through the secular press. If these could but act in concert on all the great moral interests of humanity-the ministry ignoring secular issues, knowledge and virtue could not fail of an early triumph over ignorance and superstition.

But I shall not intrude into your columns a detail of the proceedings of the District Conference held at Camden. What was done is all I propose to report, aud that in a brief synopsis. And what was done by this body does not possess the weight of a legislative enactment or iudicial decision. It is only an advisory body, except that as a delegated and re-

## LOTHAIR.

BY D'ISRAELI.

The best novels of the present age, excel in morals, as much as they do in style and power, those which delighted our fathers and mothers.

The works of Scott, Bulwer, Thackery, Dickens and D'Israeli, are, with rare exceptions, as chaste in thought as they ed by the vulgarity of Fielding or the license of Smollet.

As Theodora is actively engaged in the cause of Italian Independence, she is naturally an anti-papist, and the' not a member of any Protestant communion, she uses all her powerful influence to prevent Lothair from becoming a Catholic. At her husband's London house, he meets a cultivated and pleasing society, different from any he has known before, and spends most of his time there. It is this friendship, which seems to us as pure as the love of sisters for each other, that has given rise to the carpings of some ill humoured critics We cannot understand why a married woman of great intelligence, high cultivation and unimpeachable virtue, may not be sincerely loved and respected by an unmarried man, without a thought or idea of impurity.

The episode of the pearls ought to convince any one, not biassed by prejudice, that Theodora, like Casar's wife. is above suspicion. A more beautiful incident, we have never read. And the mind that conceived it, must be noble and chaste.

Theodora joins the Italian insurgents under Garabaldi, her husband holding high rank in the patriot army.-Lothair, after celebrating his majority in true old English style, unites his fortunes to the cause so dear to his dearest friend. The patriots are defeated. Theodora is killed by a stray shot, and Lothair severely wounded. In this condinursed by his Catholic friends from England. He is thus again thrown under Popish influences. Cardinal Grandison Sunday School Visitor, published at and his priests lend their aid to his Nashville, is recommended. Also Burke's attempted conversion. The whole plan fails because of the dying injunction of Theodora, and the discovery by Lothair of a base and groundless scheme to entrap him into the Church of Rome by means of a pretended miracle.

This naturally disgusts his caudid and high toned nature, and he breaks away from his wiley friends and after many adventures returns to England and marries the protestant heiress.

The jesuitical scheme appears to us the great fault of the book. It seems unfair to the Protestant cause to make the hero unable to resist Catholic alurements, until he discovers that a fraud and a pretended miracle are being used otio body of men, representing the diction, and refuse to be tried by those for his conversion.
